1. Claims 1-25 are presented for examination.
2. The applicant should use this period for response to thoroughly and very closely proof read and review the whole of the application for correct correlation between reference numerals in the textual portion of the Specification and Drawings along with any minor spelling errors, general typographical errors, accuracy, assurance of proper use for Trademarks TM, and other legal symbols ®, where required, and clarity of meaning in the Specification, Drawings, and specifically the claims (i.e., provide proper antecedent basis for “the” and “said” within each claim). Minor typographical errors could render a Patent unenforceable and so the applicant is strongly encouraged to aid in this endeavor.
3. Terminal Disclaimer filed 10 August 2005 is acceptable.
4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this action:

A person shall be entitled to a patent unless -

(e) the invention was described in — (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for the purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language;

5. Claims 1-25 are rejected under 35 U.S.C. 102 (e) as being anticipated by Fung (US 6,859,882 B2).
6. Prior to addressing the grounds of the rejections below, should this application ever be the subject of public review by third parties not so versed with the technology (i.e., access to IFW through Public PAIR (as found on <http://portal.uspto.gov/external/portal/pair>)), this Office action will usually refer an applicant’s attention to relevant and helpful elements, figures, and/or text upon which the Office action relies to support the position taken. Thus, the following citations are neither all-inclusive nor all-exclusive in nature *as the whole of the reference is cited* and relied upon in this action as part of the substantial evidence of record. Also, no temporal order was claimed for the acts and/or functions.
7. The rejection, and grounds for rejection, under 35 U.S.C. 102(e) as presented in examiner’s prior Office Action, are hereby maintained and incorporated in this Office Action by reference. Amendment to the claims do not teach or define above the claims as originally rejected and stand

Art Unit: 2142

rejected for the same grounds as provided in examiner's prior Office Action and herein each, and all, hereby incorporated in the FINAL Office Action by reference and continue.

8. The applicant argued the rejection under 35 U.S.C. 102(e) by stating in substance that Fung makes no disclosure, teaching or suggestion of adjusting power supplies to optimize power consumption as recited in Claim 1. **HOWEVER**, see col. 37 (line 1); and that Fung fails to disclose, teach or suggest adjusting of power supplies based upon predicted requirements as recited in independent Claims 12 and 22. **HOWEVER**, claim 12 does not recite "predicted requirement"; nonetheless, see col. 64 (line 64-et seq.).

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

10. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
